

# Your Baby Can't Immunise Itself.

The Office of  
the Fairly Obvious

A pretty official public service announcement.

Make sure your child is getting the right vaccinations at the right time by following the Victorian Immunisation Schedule. It's one of the single most important things you can do to protect their health and that of others around them.

## Immunisation schedule Victoria from February 2014.

Age/ School Year	Disease	Vaccine Brand	Notes
<b>Birth</b>	- Hepatitis B	H-B-Vax II Paediatric	Give within 7 days of birth
